WEEE-Reg.-N
DE 98021917

Three cylindrical capacitors are shown, each with a different dielectric material. The first capacitor has a red dielectric, the second has a yellow dielectric, and the third has a green dielectric. They are arranged in a row, with the green one being the largest and the red one being the smallest.

Leuchtmittel: 6 Superflux-LED je Farbe.
Lebensdauer ca. 100.000 Betriebsstunden
